TAPS & SHOWERING

Known for leading the way in innovative brassware design, for over 20 years Crosswater has placed quality and perfection at the heart of all its bathroom products. Offering a comprehensive range of brassware solutions, designed by a creative collective of leading designers, we are proud to bring you innovative designs, superior materials and unrivalled function across all of our collections. Whether you're looking for a single basin tap or a complete showering solution, Crosswater brassware provides everything you need to create a beautiful bathroom.

Innovative product range

Choose distinctive style and browse the next generation of taps, valves and shower heads with a collection that ranges

from classic elegance to the truly contemporary. Providing our customers with a complete brassware collection under one roof, there's no need to shop around. At Crosswater we ensure the utmost dedication to performance and quality.

Unique brassware solutions

Combining high-quality materials with the latest in water flow technology, our standards are unrivalled; this means you can trust that every Crosswater product will function to the highest degree without compromise. We also understand that aesthetics are equally as important. This is why all our brassware is designed with you in mind, offering a breadth of styles and shapes to suit all tastes and décor preferences.

STYLE

Transforming everyday bathing into an extraordinary experience, our extensive collection of brassware designs offers something for everyone. Innovative in style yet fully functional, choose from an impressive range of both modern and traditional brassware designs, all of which perform to the same superior standards that we set for each and every product.

The latest looks

At Crosswater, we understand that looks are equally as important as functionality, which is why we adapt to the latest trends to bring you the very best in design-led brassware. If it's contemporary you're

after, we have an impressive range of sleek and minimal solutions, available in a broad variety of outlet functions, from basin, to bath and shower.

Traditional styles

Traditional brassware no longer means you have to compromise on performance. The latest water pressure functions and smart, behind-the-scenes technology allows us to bring you all the benefits of a modern brassware design in a classic form. Our passion for detail is evident, with stunning ceramic indices and period detailing available across our traditional collections.

QUALITY

At Crosswater we're proud to say that our designs hit the mark on both quality and performance. Expertly manufactured using the finest craft skills and workmanship, each individual product goes through the same rigorous testing to ensure we translate that same quality to you at home. Complying to the highest regulatory standards and thermostatic performance guidelines, our valves bring you the best and safest products for the home. A selection of our high-quality tap designs also comes with WRAS accreditation, ensuring a product that guaranteed to bring you peace of mind.

Brassware quality

Beautifully crafted, our brassware is presented in a wealth of stunning finishes.

Choose from high-shine polished chrome, brushed chrome and nickel to create a bathroom that really stands out. Blending form, function and superior quality Crosswater's brassware ranges offer exceptional value and style to create the perfect bathroom.

15-year guarantee

Longevity is important to us. We're also confident in the quality of our product. That's why we offer a 15-year guarantee on most designs in the Crosswater range, passing on that assurance and performance certainty to each of our customers, setting a benchmark for design excellence.

RANGE

Whether you're looking for a single basin tap, or complete brassware solution, at Crosswater we have it all. Priding ourselves on offering an unrivalled choice of designs across a number of exceptional collections, we combine the latest technology with design-inspired forms to bring you the very best in brassware design.

Coordinating ranges

We offer brassware collections for every area of your bathroom. This means that

you're guaranteed to find a shower valve that coordinates perfectly with your choice of basin tap and bath filler.

Our collection is famed for excellence. By understanding our customer and merging this with our expert knowledge for the bathroom market, we can confidently say our products are up there with the very best in the industry.

INSPIRATION

Combining modern functionality with on-trend aesthetics, each Crosswater product is manufactured to the highest specifications, offering customers assured quality and superior performance. Keeping in line with the latest bathroom innovations, Crosswater's complete brassware collection makes the process of buying and installing a bathroom easier than ever, whilst simultaneously guaranteeing a product that delivers on performance.

Digital shower valves

Combining advanced electronic technology alongside design excellence, our Digital range sets a new benchmark in bathroom automation, offering a highly responsive showering system that allows you to precisely control the flow and temperature of your water. Team this with a selection of both contemporary and classic brassware designs to complete the look. For further information on Digital please visit www.crosswater.co.uk/digital

CLASSIC STYLE, CONTEMPORARY FUNCTION

TRADITIONAL COLLECTIONS

Our Waldorf and Belgravia collections offer the timeless elegance of classically-inspired design, with the added advantages of superior functionality and high-quality materials. Featuring traditional touches such as bevelled edges and elegantly curved spouts, both brassware ranges are available in a choice of chrome crosshead or lever handles, with Waldorf also offering the lever handle in exquisite white and black finishes.

TRADITIONAL DESIGN AT ITS BEST

WALDORF

Classic in its inspiration, Waldorf is a truly evocative bathroom collection. Combining exquisite craftsmanship with early twentieth-century style, the new Waldorf range has been designed and produced in Europe to represent the ultimate in bathroom luxury. Blending classic rectangular lines with elegant softened edges to evoke a high-quality, striking look, the new range of brassware and sanitaryware is suited to both contemporary and traditional bathroom schemes.

CROSSWATER'S FIRST COMPLETE BATHROOM COLLECTION

As our first complete bathroom collection, Waldorf offers everything you need to create a unified look. Complementing the brassware is a sophisticated range of Bauhaus ceramics, which present all the signature features of Waldorf in a range of stylish basins, WCs, and our first ever bath design.

Visit the website for the full collection:
www.crosswater.co.uk/waldorf

LUXURIOUS SHOWER VALVES

A refined accompaniment to the range of shower heads and handsets, our recessed valves combine the latest in thermostatic technology with Waldorf's classic styling for a luxurious showering experience. Choose from multiple outlet options for a shower that caters to all your bathing needs.

VALVES 38 - 47

BLACK LEVER 30 - 33

CHROME LEVER 34 - 37

A CHOICE TO SUIT YOU

To ensure there's a look to suit your bathroom, our Waldorf brassware range is available in a refined choice of crosshead or lever handle options. Opt for the distinctive black or white lever handles, which beautifully complement the polished chrome finish, or the coordinating chrome finishes for a unified look.

STATEMENT EXPOSED VALVES

For a truly classic statement, choose from our range of Waldorf exposed shower valves. With multiple outlet options, choose an option with a handset for a complete showering solution.

WALDORF EXPOSED VALVES

Complement your Waldorf bath and basin brassware with matching exposed shower valves.

DESIGN TO SUIT YOU SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head or the 12" luxury fixed head, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

Standard - 8" fixed head

Optional - 12" luxury fixed head

ADDED FLEXIBILITY HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

Handset on rigid rail

AN OUTSTANDING BRASSWARE COLLECTION

BELGRAVIA

Introducing our most extensive classically designed brassware, Belgravia is exceptionally crafted and hand polished across the entire range. For those with discerning tastes and a penchant for the highest quality, this elegant style offers a designer element to traditional bathroom schemes. Displaying ultimate form and function, Belgravia is produced from genuine brass castings with ceramic levers and operates from low water pressure.

HAND POLISHED FINISHES

Adding a touch of hotel-inspired luxury to bathrooms, the eye-catching chrome surface of our traditional Belgravia collection is meticulously hand polished for a reflective, high-shine finish. A handpicked selection of the designs is also available in a subtle nickel finish, perfect for adding a touch of glamour.

TAPS & MIXERS 50 - 61

ELEGANT SHOWER VALVES

The classic style of the Belgravia shower valve collection offers a sophisticated smooth finish, perfect for creating a designer element within traditional bathroom schemes. Alongside our advanced thermostatic shower valve, our latest innovative brassware range also consists of an exposed valve collection presenting the option of a single or two outlet valve.

VALVES 62 - 79

CROSSHEAD OR LEVER OPTIONS

A refined choice for advocates of traditional design, the Belgravia collection is presented with the option of crosshead or lever handles. Drawing inspiration from classic archives, Belgravia offers a wide choice of brassware to suit any bathroom.

COORDINATING CHROME ACCESSORIES

For the ultimate in luxury interior styling, add an elegant finishing touch to bathrooms and complement your Belgravia brassware with matching accessories.

COORDINATING SHOWER PACKS

Trouble deciding the perfect showerhead for your chosen valve? We've curated premium shower pack options to help you find the perfect style combination to complete your bathroom! See page 224-253 for more information.

DIAL VALVES

INTUITIVE, SMOOTH
FUNCTIONALITY

New from Crosswater, Dial is the latest in push button shower technology which enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 4 designs, it's smart on the inside using pioneering flow control technology. Available in both single and double outlet options, Dial is a step forward in on/off and water flow control technology with the touch of a button. This allows for total control over your bathing and showering experience.

See pages 224-253 for more information on Dial

BELGRAVIA EXPOSED VALVES CHROME

Complement your Belgravia bath and basin brassware with matching exposed shower valves.

OUTLET OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

DESIGN TO SUIT YOU SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head, a 12" luxury fixed head or 8" fixed head with rub clean nozzles, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

Standard - 8" fixed head

Optional - 12" luxury fixed head

Optional - 8" fixed head with rub clean nozzles see page 280

ADDED FLEXIBILITY HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

EXCEPTIONAL QUALITY

Create the perfect showering experience with a luxury 35mm diameter rail that not only adds superior styling but also improves water flow.

BELGRAVIA EXPOSED VALVES NICKEL

Complement your Belgravia bath and basin brassware with matching exposed shower valves.

OUTLET OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

DESIGN TO SUIT YOU SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head, a 12" luxury fixed head or 8" fixed head with rub clean nozzles, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

ADDED FLEXIBILITY HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

A TOUCH OF CLASS

DESIGNER COLLECTIONS

For those looking to add a touch of high-end appeal to bathrooms, look no further than our designer brassware collections. From the striking curves of the Mike Pro range, to the sculptural forms of the Gallery taps, there's a choice to suit any bathroom style. The range also includes the iconic Kelly Hoppen designs, which showcase a luxurious selection of statement brassware pieces, all encompassing the signature style of the respected interior designer.

COORDINATING SHOWER PACKS

Trouble deciding the perfect showerhead for your chosen valve? We've curated premium shower pack options to help you find the perfect style combination to complete your bathroom! See page 224-253 for more information.

DIAL VALVES

INTUITIVE, SMOOTH
FUNCTIONALITY

New from Crosswater, Dial is the latest in push button shower technology which enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 4 designs, it's smart on the inside using pioneering flow control technology. Available in both single and double outlet options, Dial is a step forward in on/off and water flow control technology with the touch of a button. This allows for total control over your bathing and showering experience.

See pages 224-253 for more information on Dial

SILK

Graceful European styling featuring gentle, smooth lines.

2-WAY DIVERTERS

These valves let you control two products, for example a shower head and a bath filler.

KAI LEVER

MULTI-PORT VALVE CONCEPT

Our new multi-port valve offers all the signature functions you're used to but with superior installation flexibility. Boasting individual feeds that can exit left or right, full maintenance can be accessed from the front, including the ability to reverse the hot and cold supplies if required. Alternatively, both left and right feeds can be opened, supplying two outlets working simultaneously. Available in two, three or four-outlet set ups, the easy-to-use controls are mounted on individual square plates, with the thermo control on a larger plate for added convenience when maintenance is required.

WHICH VALVE IS RIGHT FOR YOU?
See pages 206-217 for our guide.

2500 DIVERTER VALVE

This innovative multi-outlet valve is probably the first concealed model to feature an integrated double check valve (DCV), which is designed to protect water supplies from contamination and back fill. Bath overflow fillers require a double check valve so this clever advancement in valve technology gives the very best in showering and modern bath filling, which also reduces installation costs and time.

This pioneering product operates 3 outlets from a single diverter instead of two. It can operate a bath filler with an overhead shower and handset, or a three-shower outlet such as a wall handset and a dual functioning overhead shower, for an invigorating experience.

A. Water control with diverter for three separate outlets

SHOWERING

A RANGE OF INNOVATIVE SHOWERING SOLUTIONS

CHOOSE THE IDEAL VALVE FOR THE PERFECT SHOWER

SHOWER VALVES

Crosswater has an unrivalled collection of shower valves to provide you with the ultimate in performance. Choose a highly efficient multi outlet experience or an versatile yet simple, single shower outlet. Whichever your preference, all designs are brilliantly engineered to suit British plumbing systems.

RECESSED VALVES FOR A MINIMAL LOOK

With the largest range of horizontal and vertical recessed valves, the collection remains unsurpassed in choice and quality. Using thermostatic valve technology, you can be assured they're safe and easy to operate.

Our recessed valves are ideal for use with fixed shower heads, body jets or shower kits with wall outlet, with a wide choice of head options designed to match your brassware. The stylish chrome brass face plates easily fit over uneven or bumpy tiled surfaces to create an efficient and streamlined look.

PAGES 206 - 217

MULTIFUNCTION VALVES THE ALL IN ONE COMPLETE SHOWERING EXPERIENCE

Simple to install, multifunctional valves offer a fabulous overhead showering experience that incorporates a versatile handset for hair washing or for smaller children to use

Designed with families in mind, our valves feature a built-in safety stop at 40°C with manual override to ensure a safer showering experience at home. The ceramic disc control enables smoother operation and quick transfer from hand set to overhead shower, another function that is perfect for busy family bathrooms.

PAGES 218 - 221

DIAL VALVES

PUSH BUTTON VALVE TECHNOLOGY

New from Crosswater, Dial is the latest in push button shower technology which enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 4 designs, it's smart on the inside using pioneering flow control technology. Available in both single and double outlet options, Dial is a step forward in on/off and water flow control technology with the touch of a button. This allows for total control over your bathing and showering experience.

PAGES 224 - 253

**EXPOSED THERMOSTATIC VALVES
PERFECT ACCOMPANIMENT
FOR SHOWER KITS**

Featuring precisely controlled water temperature levels and immediate response to changing the water flow, these valves are ideal for the family.

Simple to install, our exposed valves are available in both timeless round or contemporary square designs ensuring there is a stylish option to suit your bathroom.

The fail-safe thermostatic control maintains the selected temperature to within 1.5°C degrees either side, whilst the temperature control also has a built-in safety stop at 40°C.

PAGES 222 - 223

WHY CHOOSE CROSSWATER VALVES?

QUALITY COMES FROM WITHIN

Endurance, quality, economy and safety lay at the core of every Crosswater thermostatic shower valve.

PRECISION TECHNOLOGY THE PERFORMANCE 'HEART' OF THE VALVE

'Vernet CA43' is the world's leading thermostatic cartridge due to its advanced technology in smooth and precise temperature control.

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another or turn off the water to shampoo your hair, the thermostat will automatically find the exact same pre-set temperature when you re-commence your shower, allowing you to relax and enjoy the ultimate showering experience.

RELIABILITY FIVE YEAR GUARANTEE

The key element of the valve technology is the ingenious 'thermo-brain' feature. The high-quality materials used for this thermo-brain greatly minimise the potential for limescale settling on working parts, which extends the lifetime and performance of the valve. The lifespan is a minimum of 50,000 cycles, which equates to a family of four showering twice per day for up to 17 years! (Dependent upon water quality and delivery conditions).

By installing a Crosswater thermostatic shower valve you can start to save water and energy from the first day of use. Thanks to the superior shower technology and operation efficiency, a Crosswater thermostatic shower valve will pay for itself over a short period of time.

WITH COMPLETE CONFIDENCE IN THIS TECHNOLOGY, OUR THERMOSTATIC CARTRIDGE COMES WITH A FIVE-YEAR GUARANTEE

DURABILITY QUALITY CERAMIC DISC CARTRIDGE

The basis for all high quality shower valves is the performance of the internal turning parts - even after it has been used thousands of times. All Crosswater thermostatic shower valves use Flühs ceramic disc technology - the leading innovator, producer and supplier in the world of water supply products. **Each valve is marked with a Flühs symbol as a sign of quality and compliance.**

Silky smooth operation and precise water control are characteristic of Flühs products. All raw materials are highly resistant to acid and alkali solutions in the bathroom (soap, shampoo, etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

SAFETY PRECISION IN TEMPERATURE & WATER FLOW CONTROL

Once you have selected your preferred water temperature it will remain unchanging for the duration of your shower, so there's no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. The Vernet cartridge has precise temperature control and automatic shutdown should a cold water failure occur, and the anti-scald function is individually checked on each cartridge prior to leaving the factory to give you peace of mind.

In accordance with British Standard NHS D08, the Vernet CA43 cartridge provides the best temperature regulation and safety measures possible. The thermostatic mixer valve blends the hot and cold water together and reacts instantly to any changes in the water pressure. For example, when a WC is flushed, the cartridge ensures that the temperature is maintained within 1°C below/above the set temperature.

Vernet cartridges are designed and produced to fully conform to the requirements of TMV2 and 3, thus providing users of all ages with the peace of mind that water flow and temperature are consistently provided.

FOR A MINIMAL LOOK

RECESSED VALVES

With the largest range of horizontal and vertical recessed valves, the collection remains unsurpassed choice and quality. Using thermostatic valve technology, you can be assured they're safe and easy to operate.

RECESSED VALVES FOR A MINIMAL LOOK

- Recessed for streamlined appearance
- Vertical and horizontal options
- Multi control functions
- Ceramic disc control for smoother operation
- Precise thermostatic control, maintaining selected temperature to within +/- 1.5°C
- Only 75mm deep wall recess required
- 100% solid brass construction and trim set
- Chrome brass face plates - that fit over uneven/bumpy tiled surfaces
- Fully serviceable from the front
- Ideal for use with fixed shower heads, body jets or shower kits with wall outlet
- Wide choice of head options designed to match your brassware, see below
- Finished with high quality chrome plating
- 15 year guarantee
- WRAS and TMV2 approved

RECESSED VALVES

1000 THERMOSTATIC VALVE

The best flow and temperature for a single fixed shower head or shower rail using a wall outlet.

- Water pressure: Single outlet works from 0.2 bar upwards

- Temperature and water flow controlled independently

- Suitable for all hot water systems, including gravity fed (0.2 bar minimum) and high pressure (5.0 bar maximum)

- Temperature control mechanism has a temperature limit stop which can be preset at any temperature

- Temperature handle has a built-in safety stop at 42°C with an automatic safety shutdown should the hot or cold water supply fail

- Ceramic disc control for smooth action and no drips

- 100% solid brass construction and trim set

- Fully serviceable from the front

- WRAS Approved to TMV2

- Wide choice of head options designed to match your brassware

- Panel dimension w 120 x h 215mm

1500/1501 THERMOSTATIC VALVE

The market's favoured two outlet valves. Ideal for a fixed head and shower rail, or shower head and bath filler.

- Two outlet valve with diverter to switch between two different shower or bath functions

- Water pressure: HP1, 1 bar

- Portrait (1500 - shown right) and landscape (1501 - shown below) options

- Ceramic disc control for smooth action and no drips

- 100% solid brass construction and trim set

- Only 75mm wall depth required

- WRAS Approved to TMV2

- Fully serviceable from the front

- Wide choice of head options designed to match your brassware

- Panel dimension w 120 x h 215mm / w 215 x h 120mm

1600 THERMOSTATIC VALVE

This modern, multifunctional design allows you to switch effortlessly from bath filling to overhead or wall mounted shower.

Bath spout with integrated diverter for overhead or wall mounted shower

Water pressure: HP1, 1 bar

Panel dimension w 120 x h 275mm

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

A. Water control with diverter for two separate outlets

B. Temperature

1701 THERMOSTATIC VALVE

Our new and luxurious fully integrated two outlet valves can be smartly operated for bath filling with a handset, or double showering with an overhead shower and handset.

Two outlet valve with diverter to switch between bath and shower or two shower outlets

Landscape only

Water pressure: HP1, 1 bar

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

Choice of styles

Panel dimension w 275 x h 120mm

B. Temperature

RECESSED VALVES

2000/2001 THERMOSTATIC VALVE

This classic valve features three flow controls and allows you to use two outlets separately or at the same time. Operate a bath with shower, or with two shower outlets.

Perfect for Glide and Revive overhead showers

Two outlet valve with diverter to switch between two different shower or bath functions

- Water pressure: Works from 0.5 bar upwards
- Portrait (2000 - shown right) and landscape (2001 - shown below) options
- Ceramic disc control for smooth action and no drips
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Only 75mm wall depth required
- WRAS Approved to TMV2
- Wide choice of head options designed to match your brassware
- Panel dimension w 120 x h 275mm / w 275 x h 120mm

2500 THERMOSTATIC VALVE

Probably the first concealed multi-outlet valve to feature an integral double check valve, negating the need to fit a separate DCV in the plumbing system - saving fitting time and cost. This innovative advancement in valve technology makes the 2500 model the very best valve to install with a bath overflow filler that requires a DCV, with overhead and hand shower fixtures.

Perfect for Glide and Revive overhead showers

Three outlet valve with single diverter to switch between three different shower or bath functions

- Water pressure: HPI, 1 bar
- Portrait only
- Ceramic disc control for smooth action and no drips
- 100% solid brass construction and trim set
- Fully serviceable from the front
- WRAS Approved to TMV2
- Available for Kai Lever, Svelte, Watersquare and Central
- Panel dimension w 120 x h 215mm

2701 THERMOSTATIC VALVE

The classic shower valve now with integrated shower handset and holder. Allows you to use two outlets separately or at the same time. Operate a bath with a shower or with two shower outlets .

Two outlet valve with individual flow control for bath and shower or two shower outlets
Landscape only
Water pressure 0.5 bar upwards
Ceramic disc control for smooth action and no drips

MULTI-PORT VALVE CONCEPT

Our new multi-port valve offers all the signature functions you're used to but with superior installation flexibility. Boasting individual feeds that can exit left or right, full maintenance can be accessed from the front, including the ability to reverse the hot and cold supplies if required. Alternatively, both left and right feeds can be opened, supplying two outlets working simultaneously. Available in two, three or four-outlet set ups, the easy-to-use controls are mounted on individual square plates, with the thermo control on a larger plate for added convenience when maintenance is required.

THE ALL-IN-ONE COMPLETE SHOWERING EXPERIENCE

MULTIFUNCTION VALVES

The all-in-one complete showering experience, multifunctional valves offer a host of fabulously advanced design features and incorporate a versatile handset, overhead shower and valve in one single product. With magnificent styling, an unbeatable directional showering performance, thermostatic control and excellent eco benefits, our superior range is not only smart and modish but also incredibly easy to use.

FEATURES

Fail-safe thermostatic control, maintaining selected temperature to within +/- 1.5°C

Water pressure: 1bar minimum

Integral shower head and handsets

Smooth height adjustable directional hand sets

Ceramic disc control for smoother operation

Quick transfer of water from hand set to overhead shower

Automatic safety shutdown should the hot or cold water supply fail

Flow control with integral diverter

Temperature control has a built-in safety stop at 38°C with manual override for a safer shower

Water Save button reduces water consumption, with manual override

Simple to install

15 year guarantee

Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

Shower head features

Ball joint adjustable angle fixed head

Smooth slide up and down hand set

Intelligent water distribution

Full height handset adjustment

1500mm hose

Grey or chrome faced head

Wipe clean nozzles

Features shown above are generic and may not apply to all Crosswater Multifunction Valves, please check product details for specific information.

ECO & INSTALL FRIENDLY

Speeding up the process of getting water to your desired temperature quickly means lower energy consumption, reduced heating bills and carbon dioxide emissions. Reducing water usage is important to us all so the innovative water delivery of our valves means you get maximum performance with less water. Multi-function valves are quickly and easily installed. All water-carrying elements are installed on front of a wall; they so they can be simply maintained or upgraded at any time without the need to get inside walls.

DIAL^x

*Push button valve
technology*

CENTRAL

Ground breaking style combined with supreme, flexible performance, this design features curvaceous contours for a chic look.

KAI LEVER

A contemporary design and a popular choice, the cubic edging creates a style statement in any contemporary bathroom.

BELGRAVIA

Graceful characteristics exude this classical design, which features exquisite detail that meets modern bathroom solutions.

PIER

Geometric in form with a touch of luxe, this modern design is confident in style with a whisper of hotel boutique.

INTUITIVE, SMOOTH FUNCTIONALITY

DIAL VALVES

New from Crosswater, Dial is the latest in push button shower technology which enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 4 designs, it's smart on the inside using pioneering flow control technology. Available in both single and double outlet options, Dial is a step forward in on/off and water flow control technology with the touch of a button. This allows for total control over your bathing and showering experience.

SLICK CONTROLS SMART DESIGN & EFFORTLESS PERFORMANCE

Push the top dial once to start/stop water flow

Turn to increase/reduce the water flow

Turn the middle dial to adjust the temperature

Push the bottom dial to start/stop water flow of an additional outlet

OUTLETS OUTLETS CAN FUNCTION INDIVIDUALLY OR TOGETHER

Your choice of outlet is one of the most important features to fine-tune your showering or bathing experience. The flexibility of Dial allows you to choose from several options, from the simplicity of a single outlet or the versatility of a double outlet.

**QUALITY
SMARTER ON THE INSIDE**

Simple push button operation, precise temperature control and 11 separate flow positions ensure Dial is designed with families in mind, whilst offering the perfect flexibility between eco friendly showering and a luxurious high pressure power shower.

Suitable for low pressure systems when installed with a positive head pump

Simple push button operation

Responsive controls preventing residual water

11 separate flow positions

Precise temperature control

Body engineered for maximum flow rate

Brass body

THE ULTIMATE SHOWERING EXPERIENCE

SHOWER HEADS

If you've a penchant for contemporary design or if you lean to the more traditional styles, there's an array of sophisticated styles, sizes and ideas to inspire you. All designs are intuitively designed to ensure you have a supreme showering experience every time. We understand showering needs vary and you'll find shower head sizes range from 150mm to 600mm in diameter. From a deluge of water that pours from flawless statement overhead designs to spa styles that refreshingly drench your entire body, create your ultimate showering experience.

SIZE MATTERS

COMPACT OR LARGE

A smaller head diameter enables a more concentrated down pouring spray pattern whereas a wider, larger head provides a gentle showering experience or for a combination of the two, there's a shower head options to suit your needs. Featuring designs that encompass intelligent water distribution, you can tailor your showering preferences to exactly how you want them with assuring performance capabilities. Whether you favour a powerful and invigorating shower or a moderately refreshing experience, sizes span from 150mm to 600mm in diameter to ensure there's a dimension to individually suit you.

SHOWER ARMS

CEILING OR WALL MOUNTED?

To help you choose which shower head design to incorporate, consider your style aspirations and the best water flow to create your desired experience. For an authentic overhead shower choose a style that's affixed to the ceiling, or a shoulder shower head that's elegantly wall mounted.

Ceiling mount

Wall mount

A WIDE RANGE OF STYLES MODERN AND TRADITIONAL SHOWER HEAD DESIGNS

The following pages will provide you with the design style, size and effect you dream of minimalist ultra-thin, cool classics and retro modern traditional style. Choose one of our air infusion models for a richer, softer water spray; the thin heads deliver the most even spray imaginable.

FEATURES

- Anti-lime scale function
- Wipe clean water nozzles for a perfect spray
- Choice of brass, stainless steel and ABS construction
- Suitable for all water pressure installations
- Adjustable angle
- Chrome finish face plates
- Swivel ball joint
- Air infusion technology (Essence and Elegance)
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
- Option of ceiling and wall arm installation
- 15 year guarantee

LED FIXED HEADS GREATER SHOWERING ENJOYMENT

Seek the benefits of chromotherapy that balances energy and achieves spa wellness with the collection of illuminating shower heads, for a revolutionary LED light showering experience. The low consumption LED lamps create a truly magnificent column of water and light with visually stimulating effect.

FEATURES

- Recessed ceiling installation
- Anti-lime scale function
- Double waterfall effect
- Up to 13 light settings
- Low consumption LED lighting
- Wipe clean water nozzles for a perfect spray
- Solid brass construction
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
- Option of ceiling and wall arm installation
- 15 year guarantee

MULTIPLE WATER FLOW THE BEST IN LUXURY SHOWERING

Create the ultimate spa like experience, with the luxurious product qualities seen across all fixed heads. For statement style, choose from a selection of innovative wall mounted heads that feature cascades of reviving water flows, gentle rain sprays or even a combination of both.

SVELTE

Combining sophisticated and innovative style, the new Svelte shower head embraces luxury bathroom elegance. Featuring multiple water flow channels, including rain, waterfall and refreshing spinning jets, the spa-inspired design offers a sensational showering experience.

THE NEXT GENERATION OF SHOWERING

CHROMATHERAPY SHOWER HEADS

Showering with a difference, our innovative range of illuminated shower heads will transform daily bathing routines into the ultimate spa experience. Featuring integrated LED lights, users can choose between green, blue, purple or white colours, or a stunning rotational spectrum to create an in-shower light show that is guaranteed to soothe and relax.

DYNAMO

Beautifully rounded and elegantly illuminated, the Dynamo shower head depicts the ultimate in luxury showering. Ambient light rays beam from the oversized lustrous dome to create a peaceful environment for you to revitalise and rejuvenate in for the entire duration of your shower. Extraordinarily, Dynamo's LED lighting function is powered by the water that flows through it and therefore does not consume any electricity, as there's no need for it to be connected to the mains.

CHOOSING THE CORRECT VALVE

It's likely that you'll be teaming up your body jets with other items such as a shower head or hand set. If so, you'll need to look out for valves with one of the icons shown below. These 2, 3 and 4-way diverter valves allow you to control multiple outlets with ease.

EASY FIT
HASSLE FREE
INSTALLATION

A selection of our in-shower body jets come complete with easy fit in-wall boxes, to ensure that installation is simple and fuss free.

COMBINING THE ESSENCE OF ALLURING STYLE WITH ERGONOMIC DESIGN

SHOWER KITS

The high performance shower kits are a simple and effective option for installing a premium shower head in any shower or bath. Cleverly designed, they also include a versatile riser rail.

FEATURES

- Detachable shower head
- Smooth height adjustment
- Durable shower hose
- Chrome finish rail and hand sets
- Handsets work with as little as 0.1 bar water pressure (LP)
- 15 year guarantee
- Dual function handsets on many models
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

All of our shower kits can be easily installed with all Crosswater recessed or exposed shower valves.

IDEAL FOR

IDEAL FOR FAMILY BATHROOMS WITH MULTIPLE USERS DUE TO THEIR FLEXIBLE HEIGHT ADJUSTMENT FEATURE AND WATER FLOW OPTIONS

MULTIFUNCTION WATER FLOW

INTENSE DRENCHING OR RAIN FALL?

As the most extensive shower range available, browse some of the smartest designs to hand. Practical and thoughtful features have been incorporated for everyday use in all types of bathrooms, from a dedicated wetroom to fitting over a bath.

The collection offers a wide choice of dimensions without compromising on performance to create an enhanced showering experience everyday. User friendliness consistently features across the versatile range that offers standard single to luxury multifunctional sprays.

LUXURIOUS DESIGN

PREMIUM SHOWER KITS

An exceptional range of premium shower kits with the option to mix and match components to create your preferred combination of style, pattern and flow. From luxury fixed shower heads to handheld options on rigid risers and wallmounted handsets, Crosswater has a vast selection of versatile designs to suit all needs. A cut above the rest, this desirable collection is available to meet the demands of those with a taste for high quality and luxury.

See page 300

ADJUSTABLE HEIGHT

Ideal for families where there are variances in height, the riser kits adjust the shower head to individual heights and angles. The riser is friction free so it can effortlessly glide vertically for anyone that regularly uses the shower. A stunning bathroom feature, the shiny chrome finish is also simple to clean and maintain.

ETHOS

Changing the shape of showering pleasure, the Ethos handsets introduce the latest shower control technology at the touch of a button. Forget trying to operate a dial or slider with wet hands, Ethos allows you to simply press a button and comfortably switch between three spray modes invigorate, rain or a combination of the two.

Choose from a modern handset holder with wall outlet (pictured right) or opt for the ultimate in shower riser rails with the Ethos 'easy-sliding' push button design (pictured far right). The controlled height and angle adjustable handset holder is easy for the entire family to use and a great retro fit for any shower makeover.

EXPOSED VALVES PERFECT FOR SHOWER KITS & OVER A BATH

The perfect counterpart to Follow Me

Blending sleek, contemporary lines with functionality, these deck mounted diverter valves offer a genuinely smart looking solution that diverts water from the bath filler to the shower handset.

DOUCHES

Safe and easy to use, the douche kits are the most hygienic washer mixer for bidets. Each kit contains a high quality trigger operated handset, shower hose and wall parking bracket.

FEATURES - ALL DOUCHES

- Operating shut off trigger
- Chrome finish
- Wall bracket and hose included

All douche kits should be connected to a shut-off or control valve, which should be closed when not in use.

ACCESSORIES MIKE PRO

CONTEMPORARY DESIGN FEATURES

Inspired by cutting edge hotel designs that combine the very highest levels of workmanship with durable quality, which takes bathroom styling to a new level. The restrained elegance and smooth finish of these designs, gives the collection a lightness and beauty that bares the signature of all great product design.

These accessories enrich and coordinate beautifully with several of Crosswater's brassware ranges, particularly the Mike Pro washbasin. The genuine crystal soap dish, dispensers and tumblers are made from luxury quality glass and can be removed from the fixtures to conveniently use, refill or simply clean.

THE IMPORTANCE OF UNDERSTANDING YOUR WATER SYSTEM

WATER PRESSURE

SELECTING THE RIGHT PRODUCTS

In order to select a showering system that will give optimum performance you need to identify the water pressure of the plumbing system in your home.

WHAT IS WATER PRESSURE?

Water pressure is a term used to describe the flow strength of water through a pipe; it is measured in bar.

IDENTIFYING YOUR WATER PRESSURE RATING

By identifying your home's plumbing system you can select a product that best suits your water pressure.

WHY IS THIS IMPORTANT?

Whilst the majority of Crosswater products are compatible with most systems, some high pressure (HP) products are designed to work with high pressure systems only. Products marked LP (low pressure) and MP (medium pressure) are also suitable for high pressure (HP) systems.

LP	minimum 0.2 bar
MP	minimum 0.5 bar
HP1	minimum 1 bar
HP2	minimum 2 bar
HP3	minimum 3 bar
HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

WATER SAVING

We are all under pressure to save water in order to help the environment and reduce climate change. Part G of the governments' building regulations now requires all new domestic buildings to meet a maximum water consumption of 125 litres per person each day.

You can help to reduce the water consumption of your household by easily inserting a flow regulator into your basin tap or shower hose. This will allow you to control the amount of water your taps use.

5 lpm basin tap flow regulator
designed for taps with screw in circular aerator housing
35.6184.0 **£6.00**

3.5 lpm basin tap flow regulator
designed for taps with screw in circular aerator housing
35.6182.0 **£6.00**

8 lpm shower flow regulator
designed for hand showers or fixed heads operating min 1 bar
58.8638.1 **£3.00**

6 lpm shower flow regulator
designed for hand showers or fixed heads operating min 1 bar
58.8636.1 **£3.00**

Basin aerator 5.7lpm
40.8356.01002 **£4.00**

HOT GRAVITY & COLD GRAVITY/MAINS

Low pressure systems (LP min 0.2 bar)

- ✔ You have a cold water storage tank in the loft.
- ✔ You have a hot water cylinder.
- ✔ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP (min 0.2 bar).

Note A gravity fed system provides MP (0.5 bar) to fittings downstairs in a 2 story property where the cold water tank is in the loft.

COMBINATION BOILER

Medium pressure systems (MP 0.5-1 bar)

- ✔ You have a combination boiler that heats water on demand.
- ✔ You do not have any storage tanks.
- ✔ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP, MP or HP1.

MAINS HIGH PRESSURE

High pressure systems (HP1/2/3 2-3 bar)

- ✔ You have an unvented cylinder with an expansion cylinder.
- ✔ You have no cold water tank in the loft.

If either of the above apply to your home you can choose any product marked LP, MP, HP1, HP2 and HP3 (minimum 1/2/3 bar).

PUMP ASSISTED

High pressure systems (MP to HP4)

- ✔ You have a booster pump fitted.

Where a gravity flow of water is in excess of 0.6lpm, this is known as a 'Positive Head' condition (e.g. when your shower head is positioned lower than your cold water storage tank). In this situation, a positive shower pump can be used. A 'Negative Head' condition is when the gravity flow of water is less than 0.6lpm (e.g. when your shower head is positioned above the cold water tank level). In these conditions, a negative head pump must be used.

Negative shower pumps will work in both positive and negative head conditions. So for example, in a situation where there is a shower head above and below the water tank level; one negative shower pump can be used for both.

With the right pump, you can choose any of our products.

STYLE FINDER

With one of the UK's widest collections of superior brassware for basins, baths and showers, the entire range is an eclectic mix of styles suitable for a multitude of requirements. Styles include fashionable on trend designs to practical details for the family home and there's a range of premium finishes for those who have a penchant for a touch of luxe. Renowned for product innovation, Crosswater's brassware also features leading technology to ensure you have the best flow level and temperature to suit you.

WHY VISIT YOUR LOCAL BATHROOM SPECIALIST?

Designing, planning and buying a new bathroom should be a truly enjoyable and ultimately rewarding experience.

At Crosswater we believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?.....

1 EXPERIENCE & EXPERTISE

Specialist bathroom retailers offer a wealth of experience and skill to ensure you receive an impeccable and personal service throughout your bathroom project whatever the size, including help with installation and local tradesman.

2 DESIGN CONSULTATIONS

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

3 TEST DRIVE SHOWROOM DISPLAY PRODUCTS

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

4 AFTER SALES CARE

Once you have purchased from a bathroom specialist you can get personal and most importantly local after sales support.

PRODUCT QUALITY

TOTAL PEACE OF MIND

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

THERE'S A LOCAL BATHROOM SPECIALIST NEAR YOU

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, Mike Pro and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

TERMS & CONDITIONS

PRICES

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

DELIVERY

Orders in excess of £50.00 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £50.00 will be subject to a fixed charge of £5.00.

We will endeavour to deliver all orders on time and in full however we shall be under no liability for any delay or failure to deliver products. Any claim for non-delivery must be reported to the company within 14 working days from the date of delivery, such claims will not be accepted for deliveries to a third party delivery address.

RETURNED GOODS

Requests to return goods must be made in writing to Returns.Department@crosswater.co.uk and include the product details, purchase order number and reason for return. Requests for items not required must be received within 21 days, be in perfect condition, in the original packaging and will be subject to a 12.5% re-stocking charge. Requests for damaged, goods with missing parts and picking errors must be received within 14 days of the delivery date. Faulty items may be returned for testing or inspection at any point but must be provided with proof of purchase. Special orders are non-returnable. Collection will only be made from point of delivery. Damaged will not be collected once they have been sent to a third party.

RETENTION OF TITLE

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

LIABILITY

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the seller's works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

ERRORS & OMISSIONS

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

CLEANING & MAINTENANCE

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth.

When installing wall mounted products Crosswater strongly recommend making provisions for an in-wall access point, particularly when tiling, for maintenance purposes.

15 YEAR GUARANTEE*

All Crosswater products, unless otherwise stated, carry a 15 year guarantee which covers all manufacturing defects. This guarantee does not cover damage during fitting, misuse or inappropriate cleaning or consumable goods. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

*With the exception of cartridges which carry a 5 year guarantee, and hoses, "o" rings, diverters and shower hoses which are all guaranteed for 1 year.

PRODUCT COMPATIBILITY

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.
